

AT 05 DVB-T MOBILE CAR ANTENNA

Digistream

The DVB-T Car Antenna (AT05) is an indoor active antenna to receive the DVB-T Band IV/V. The signal from the antenna rod are fed to an broadband amplifier. The amplifier is located a few centimeter away from the antenna base unit. The DC powering of the antenna can be made via direct DC5V line feed or with an additional power inserter that accept DC12V input.

The RF cable length is 5meter with F connector .

Technical Specifications

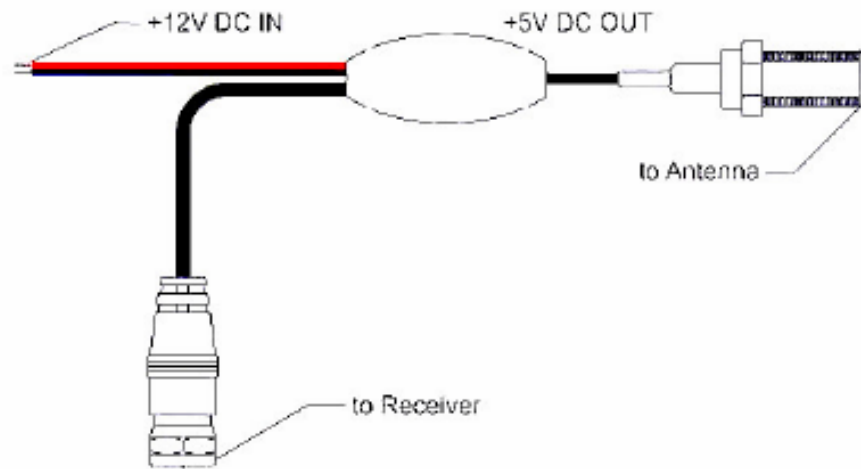

Frequency Range	UHF 470-862MHz
Peak Gain	11.5 dBi
VSWR	1.8 : 1 max
Impedance	75Ω
Polarization	Linear
Connector	F Plug
Cable	1.5C-2V
Operating Voltage	DC12V

Optional Accessories

F female to IEC adaptor
Power inserter (DC12V input)
